

SAILING / WINDSURFING

Eastern Harbour is a long narrow inlet stretching the length of Mariehamn on the east side of the town. The wind direction, which is predominately southerly during summertime, is regarded as being better in the bay than further out to sea as the bay is surrounded by small hills, which create a tunnel effect. Mariebad, a new spa and swimming centre built on the shoreline, will be the starting point for the sailing and windsurfing events. Mariebad, which has changing rooms and a café area, is in easy walking distance from central Mariehamn, and the shoreline there will give spectators a good view of the competition course.

Eastern Harbour	
Dimensions	-
Is facility complete?	Yes
